

> Add flavor and nutrients to your Vi-Shape® Shake with Shape-Up Health Flavor Mix-Ins

1. Why use a Shape-Up Health Flavor Mix-In?
The Shake Mix That Tastes Like A Cake Mix™ is already fabulous on its own. And with the Health Flavor Mix-Ins, we've given you the option to make your own unique shake more fantastic, without a commitment to buying additional shake bags that would jam your kitchen cupboards until you are ready for a new flavor. Oh, and did we tell you that they taste amazing? Each packet provides not just great flavor, but it also provides added health benefits to help improve your overall well-being.†

2. What are the benefits of the health flavors?
 Our scientists got to work and not only did they create the most innovative product for the ViSalus community, but keeping in line with our mission of creating healthy products, each Health Flavor packet provides unique health benefits.†

- **Strawberry Phyto-Power**—made with a powerful fruit antioxidant blend of strawberry, blueberry, cherry, orange, raspberry and grape seed, each packet has about 50 strawberries' worth of phytonutrients! Phytonutrients, once known as vitamin P, have many health-protective benefits.†

- **Chocolate Cardia Care**†—features a concentrated blend of heart-healthy polyphenols equal to 6–8 bars of dark chocolate. Polyphenols have many health-promoting benefits.†

3. Are Shape-Up Health Flavor Mix-Ins just for Vi-Shape Shakes?

Not at all. You'll be surprised how well they can complement your everyday menu—from a glass of milk to ice cream, yogurt, cereal, pudding—even mix them into pancake batter! Tip: Try a ViSalus favorite and blend the Strawberry Phyto-Power flavor in ViSalus NEURO®, ViSalus GO® or ViSalus PRO®.

4. Who should use the Mix-Ins?

Anyone concerned about health and well-being. These products can benefit anyone, from children to adults.

5. What are the flavors?

There are 2 flavors available for your enjoyment —chocolate and strawberry.
